About Rathnapura flood

Torrential rains between the 11th and 19th May 2023, affected the southern districts of Ratnapura, Matara, Hambantota, Kaluthara and Galle. This was the worst natural disaster in 50 years in Sri Lanka. Floods and landslides claimed 260 lives and destroyed schools, homes and other infrastructure. Floodwaters have been from 5 to 20 feet deep (higher than many rural houses). Many buildings had been submerged, particularly in the Ratnapura

district where the minaret of a mosque was
